

Letter of Recommendation for Shawn Crawford

To Whom It May Concern,

I am writing to highly recommend Shawn Crawford for any position he may seek in the future. Shawn worked with us as a temporary employee, and during his time here, he proved to be an invaluable asset to our team.

Academic and Technical Proficiency: Shawn's major in Information Systems, coupled with his deep interest in computer science and programming, made him a perfect fit for our operations. He demonstrated a strong proficiency in data analytics, using tools such as spreadsheets, Power BI, and various statistical languages like R. His ability to transform data into meaningful visualizations was particularly impressive.

Project Implementation: One of Shawn's notable achievements was the creation of an online calendar and the development of flows between the customer and company, leveraging Power BI and AI to enrich customer appointments with the required information. He also created bell curves to identify areas that were tougher to schedule based on population density and suggested A/B testing to improve our marketing strategies in specific areas. His analysis led to the discovery that non-English speaking areas were less likely to schedule appointments, which may be due to our English letters and the customer's preferred language in our systems. This insight was crucial for us to better tailor our communications and improve customer engagement.

Operational Excellence: Shawn handled a several hundred-million-dollar scheduler with remarkable competence. His analytical skills allowed him to identify and implement better operational strategies, which were critical for our success. His contributions in this area were nothing short of exceptional.

Team Orientation and Leadership: Shawn was a joy to work with and brought a smile to our faces daily. His positive attitude and enthusiasm were infectious, and he consistently demonstrated a can-do attitude towards every task. He understood the value of teamwork and collaboration, and he appreciated the contributions of his team members. His leadership skills were evident in his proactive approach and his ability to seek and incorporate feedback.

Customer Focus and Integrity: Shawn showed a strong commitment to solving problems and focusing on customer needs. He was always mindful of maintaining integrity and upholding our company's values. His ability to handle complex situations with poise and professionalism was commendable.
